Random Screening of Cargo from Known Consignors -Revision of Screening Benchmark from 0.5% to 1%

This notice advises all Regulated Agents of the revision of the benchmark on the percentage of cargo from known consignors which is to be screened by x-ray under the Quality Control Programme (QCP) from 0.5% to 1%. The new benchmark of 1% will take effect from 1 January 2007.

2. The Notice to Regulated Agents Issue No. 01/04 dated 28 January 2004 (copy can be obtained from CAD website) promulgates the launching of the Quality Control Programme whereby Regulated Agents are required to conduct random screening of a minimum of 0.5% (in weight) by x-ray of the cargo received from their known consignors which is booked to be carried on board passenger aircraft with effect from 1 March 2004.

3. The QCP has been in operation for more than 2 years. At a recent review, the industry has agreed that the percentage benchmark will increase from 0.5% to 1% with effect from 1 January 2007. In simple terms, Regulated Agents shall ensure that they arrange to conduct random screening of a minimum of 1% (in weight) by x-ray of the cargo received from their known consignors which is booked to be carried on board passenger aircraft for the calendar year from 1 January to 31 December 2007 and the subsequent years.

4. The categories of cargo excluded from the QCP as stipulated in Notice to Regulated Agents Issue No. 01/04 remain unchanged. They are :

- (a) cargo from known consignors which has been declared as 'known cargo' but booked to be carried on board cargo only aircraft
- (b) cargo from unknown consignors which has been booked to be carried on board cargo only aircraft

(c) cargo from unknown consignors on which security control measures have been conducted

5. All Regulated Agents are required to acknowledge receipt of this Notice by signing the Acknowledgement Form at Annex 1 and return it to CAD immediately.

6. If you have any queries about this Notice, please contact our staff on 21831251 or 22612183.
