

Revised Regulations on the Use of Portable Electronic Devices (PEDs) on board Aircraft

Before

Revised (on certified aircraft)

Take-offs & Landings

PEDs should be switched off and properly stowed

PEDs should be switched to **"Airplane Mode"**
(Over-sized PEDs should be switched off and properly stowed)

The following regulations remain unchanged

Cruising

PEDs should be switched to **"Airplane Mode"**
! Wi-Fi connectivity may be used on certified aircraft

At all times

Use of **radios and transmitters** is forbidden
(e.g. walkie-talkies, radios, remote controlled toys, mobile connections & blue-tooth devices)

Passengers should follow the instructions issued by the flight crew and cabin crew. The pilot-in-command may restrict the use of any kind of PEDs under specific conditions, such as during turbulence onset, low-visibility flying, interference of communication systems or according to local regulations.

Please contact your airline or the crew regarding the requirement of the use of PEDs on board aircraft and the corresponding arrangements of the airline.
